PROFESSIONAL SUMMARY:

B.Tech **Computer Science Engineering** student with a strong interest in **web development** and hands-on experience building projects using HTML, CSS, JavaScript, and C. Developed and deployed multiple websites, including e-commerce and **hospital management applications**, while learning modern development practices. Familiar with Git, GitHub, VS Code, and responsive web design. Looking for an opportunity to start my professional career, contribute to real-world projects, and continue growing as a **developer**.

TECHNICAL SKILLS:

Languages & Markup: HTML5, CSS3, JavaScript (ES6), C

Frontend Development: Responsive Web Design, UI/UX Implementation, DOM Manipulation, Cross-Browser Compatibility

Tools & Platforms: Git, GitHub, VS Code, GitHub Pages, Vercel

Soft Skills: Self-Learning, Problem Solving, Independent Project Delivery, Attention to Detail

PROJECTS:

Abhayapuri Care Hospital Management System:

Full-Stack | Vercel

- Engineered a full-stack hospital management web application featuring patient registration, appointment scheduling, department navigation, and an admin dashboard.
- Implemented responsive UI with clean UX principles, enabling seamless operation across desktop and mobile devices.
- Deployed live on Vercel with zero-downtime hosting, demonstrating end-to-end project ownership from design to deployment.

E-Commerce Website

HTML5 | CSS3 | JavaScript

- Built a fully responsive e-commerce storefront featuring product listings, category filters, shopping cart UI, and dynamic product rendering via JavaScript.
- Implemented interactive UI components including modals, quantity selectors, and a simulated checkout flow to replicate real-world shopping experiences.

E-Learning Platform

HTML5 | CSS3 | JavaScript

- Developed a multi-section e-learning platform featuring a course catalog, instructor profiles, enrollment UI, and testimonials — built with mobile-first responsive design.
- Structured content hierarchy and semantic HTML to ensure ADA-friendly, SEO-optimized page structure with intuitive navigation.

Live: ashraful-alom-1.github.io/E-Learning-Website

Travel Website

HTML5 | CSS3 | JavaScript

- Created a visually rich travel booking platform with destination showcases, tour packages, hero banner animations, and an inquiry/contact section.
- Applied CSS Flexbox and Grid for a polished, publication-quality layout that adapts fluidly to all viewport sizes.
